To whom it may concern:

I am pleased to offer this recommendation for Lowney Contracting Company. After interviewing several companies I decided to hire Lowney Contracting Company to build my personal residence based on their dedication to provide the highest quality of construction possible. In addition, being in the service industry myself, it was a breath of fresh air to meet a construction company who also believed in providing the best possible customer service. I was continually impressed by the honest, friendly and attentive staff. I would highly recommend Lowney Contracting Company for any job, big or small.

Sincerely,
